6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

In relation to my personal standards, I feel that AI generators must be used only as tools to assist my own thinking process, not to create the work itself. The use of AI is somewhat acceptable for brainstorming initial ideas or refining the clarity of my own sentences, as this supports the learning process. However, it is not acceptable for generating the final text, which must be a product of my own academic effort and understanding. Moreover, the creating mid fidelity prototype required some AI assistance as we were working for first time on it.
